

Woman Found In Water

Monday, 08 August 2011 12:47

Officials are trying to determine whose body it is that divers pulled from Mississippi River near Winona Sunday afternoon. They says it had been in the water for quite some time.

A camper at the Pla Mor Campground south of Winona told the Winona County Sheriff's Department around 2 Sunday, that they had seen a body beneath a pontoon boat docked at the campground marina. Divers from the Winona Dive and Rescue Squad along with deputies recovered the body of an unidentified adult female.

Officials say the said the woman has a smaller body.....was clothed and that there were no obvious signs of trauma or injury. Since the body was in the water for a while, officials say that makes immediate, positive identification impossible. An autopsy has been scheduled
