

A lack of witnesses so far to a hit and run accident on West avenue and Main street yesterday. La Crosse police are still hoping someone will come forward who has some information about a car versus pedestrian accident around 3:00 yesterday afternoon. According to the victim's father, all the boy remembers from the accident is that he was struck by a maroon car and that car didn't bother to stop. Witnesses are encouraged to contact the La Crosse police department. The 12 year-old victim, although suffering some head injuries and taken to the hospital, is expected to be okay.
