

Billings Is Listening To The Candidates

State Representative, Jill Billings, says she is watching the gubernatorial campaign trail of Kathleen Vinehout and Kathleen Falk real closely. But the one thing that bothers the La Crosse Democrat, is the talk of fake candidates being used in primaries like we saw last year in recall elections.

Billings, during her interview with WIZM News, did not say which candidate she would support...saying she's listening like everyone else is....to the issues each one has.
