

Police Take Several Dog Bite Reports

Monday, 25 March 2013 09:55

The ongoing winter-like conditions appear to be making dogs

somewhat stir-crazy. La Crosse police took four different dog bite complaints over the week-end. One of them from a place on the northside. An American Bulldog named Domino took a bite out of an eight year-old girl's nose. The girl needed stitches for the bite wound. The dog's owner told police Domino was probably just overwhelmed by children. Apparently not vaccinated or licensed, the bulldog is now in quarantine.
