

Thief Has Same Idea as Store Capturing Theft on Video

Monday, 29 April 2013 12:36

Police are still looking for a guy who walked off with some electronic gadgetry from Wal-mart in La Crosse last week. They got some pretty good surveillance footage of the guy grabbing the stuff at about four in the morning. They have video of him in the store, outside of the store, getting into his car. Clear surveillance images. Of the guy stealing a camera surveillance system.
