

A new garbage system in La Crosse has gained another approval. The city council's rules committee has approved moving to an automated pick-up system with Harter's. But not without concerns from landlords like Jessica Olson, worried that garbage truck cameras spying on her tenants' trash will mean more tickets for her

The seven year contract gets a final vote next week and is scheduled to go live on January first. Yard waste and large item pick-up will no longer be included in the garbage service.
