

Missing Man Found After Large Search Near Nodine

Monday, 12 July 2010 11:48

A couple dozen squad cars were dispatched to the Nodine area on Sunday, in a search for a man missing from a campground.

The search, on the ground and by helicopter, turned up a 41-year-old man who had walked away from a campground on Friday night, apparently intending to harm himself. He apparently was dehydrated, and was taken to the Winona hospital for treatment. The man was not wearing his backpack when he was found, but police later discovered a handgun along with the pack and other belongings.
