

Construction Closure for Second Street

Thursday, 22 August 2013 17:16

A little road construction will shut down a short stretch of second street in La Crosse starting early next week. The city will close second street right near the rail crossing at City Brewery. The streets department says the closure will essentially mean there won't be any thru traffic behind the brewery on second. The closure and construction begins on Monday and will last about three weeks.
