

They are calling it an accidental shooting. The Juneau County Sheriff's says

their death investigation into 28 year old Joshua Bader has shown that Bader died from a gunshot wound to his upper leg. By accident.

The Sheriff's Department says that Bader was out with friends last Friday night and at some point, after he returned home, Bader was handling a .22 caliber handgun when the gun accidentally went off, hitting himself in the upper left leg. A short time later Bader died from the injury. The Sheriff says while some follow-up investigation is still on-going, there is absolutely no information that the shooting was not accidental.
