

Brian Helgeson Identified By Autopsy; Killed By Multiple Gunshots

Friday, 27 September 2013 12:05

A Hixton man found buried this week was killed by several gunshot wounds...

That conclusion comes from an autopsy identifying the man as 57-year-old Brian Helgeson. The autopsy was conducted by the Dane County medical examiner. Helgeson had been missing for several days before his body was discovered on Wednesday. His son Lars could be charged with murder early next week. Lars Helgeson is being held in the Black River Falls jail.
