

4 Vie For Bridge Project

Tuesday, 22 October 2013 10:35

It's down to four contractors.....all bidding on the new Winona Bridge

project. The DOT says four firms will receive a request for proposals by the construction general manager.

2 of the companies are out of Burnsville, Minnesota, one from Florida and the other out of Black River Falls. All 4 were short listed based on their qualifications and experience with projects similar to the Winona Bridge project.

Construction is slated to begin in the summer 2014, with a estimated completion date for the new bridge in fall 2016.
