

Officially, it's an arson. La Crosse loggers general manager Chris Goodell tells us this afternoon that the fire department has termed Sunday's fire at Copeland Park intentionally set. The dugout and bleachers along the third base line were both torched. Both need to be completely replaced. No suspects yet, but police have collected footprints of those who apparently ran around the bases either before or after setting the fire. No dollar amount on the damage yet and no word on whether it will be the city or the Loggers who will pay for repairs.
