

Two Onalaska Routes Discussed For Power Line

Monday, 20 September 2010 11:22

That big high-voltage power line planned for western Wisconsin could run straight through Onalaska...

The city planner for Onalaska, Jason Gilman, says proposals for the 'Badger Coulee' line show two possible routes through Onalaska...one along Highway 53 and the interstate, and another along the downtown riverfront. Gilman says both suggested routes could cause problems. The power line plans will be discussed at a public meeting next Monday at the Stoney Creek Inn near Highway 16.
