

Chuck Norton is the current Director of Special Education in the Westby Area School District. He moved to the area in 2010 after accepting the position in Westby.

He spent 15 years in customer relations and management positions for an automotive company in California, before moving back to Wisconsin in 2000. Looks like a great move.....and now a title change.

Norton was named the district's new Superintendent last night.....to the liking of retiring super, Mike Murphy.

Norton beat out two other candidates and starts his new job July 1st.
