

City of La Crosse: Don't Mix Your Storm Junk

Tuesday, 24 May 2011 10:55 -

Don't mix your trees with your roofing shingles. Or your wall siding, or gutters, or windows.... or any other part of your house that came loose during Sunday's storm in La Crosse. Although the city is collecting chunks of fallen trees from boulevards, it is warning against mixing construction junk with the trees, otherwise those trying to clean up, the city says, will have to take the whole mess to the dump themselves.
