

Over one hundred thousand signatures have been collected so far in the recall effort against Governor Scott Walker. And though it seems like a great push in the early going.....Lacrosse County Republican Chair, Bill Feehan, says how many of those signatures are bogus is what the GOP is waiting for.

The petition drive must amass 540,208 signatures by January 17th to force a recall election for Walker. Feehan thinks the democrats will have enough signatures to force a recall.
