

The Military Times magazine has named Western Technical College one of the nation's top 10 two year colleges for veterans. Western, coming in at number 7 on the list, is the only two year college in Wisconsin to make the list. Jackie Helgeson says making things easier for Vet's to transition into college life is something they strive for.

More than 1,400 veteran students are currently enrolled at Western, up from 800 in 2009.
