

State Says Business Growth Healthy in First Quarter

Monday, 09 April 2012 09:27 -

Signs of business recovery in Wisconsin. At least in numbers of businesses. New numbers from the state today show a big bump in the numbers of new businesses in the first quarter of this year compared to last year. Over 98 hundred new businesses formed in the first three months of this year. That's up by over 12 percent from the same time period last year. In March, the state says new business growth jumped by over four percent.
