

What To Do With Dead Birds

Thursday, 23 August 2012 10:17 -

One dead bird with West Nile Virus has been found in La Crosse County. But who actually goes and gets the bird for study?

Amy Gab-Ril-Ska with Animal Control says after they retrieve the birds found, they send them off for sampling. She advises if you find a dead bird, to cover it up with a trash can or plastic bin...and call animal control.
