

The flu. It's here and it's early. Gunderson Lutheran's Bridgett Pfaff, says it's early in the season but they have seen influenza hitting hospitals before Thanksgiving in the past.

[\(Click for Audio\)](#)

Pfaff says here's what to look for if you think your getting the flu. Fever over 101 in adults or 103-105 in children.....chills and sweats.....headache.....muscular aches and pains, especially in the back, arms and legs and loss of appetite.
