

River Drops Below No-Wake Level

Wednesday, 13 October 2010 11:33 -

The Mississippi has dropped below 10 feet in La Crosse...

The National Weather Service says so, marking the river at 9-point-7 this morning. That means the no-wake restriction for La Crosse County boaters has expired. But, since the level is still so close to 10 feet, City Hall is asking boat owners to keep their speeds down to avoid causing wave damage to shorelines and riverfront property.
