

Boiler issues at Roosevelt Elementary School in Lacrosse has set off one northsider, who also sits on the city council and county board. Andrea Richmond says a promise is a promise.....and it's time the school board stopped turning their backs on that school.

Richmond says the cost to bus students to Northwoods is at an extremely high cost and if students are not occupying those schools.....the issues needs to be addressed.

Richmond has started a petition to get the work done at Roosevelt and plans to present it sometime next month.
